Portfolio: <https://portfolioabin.netlify.app/>

PROFESSIONAL SUMMARY

Junior Python Django Developer with hands-on experience building backend APIs and full-stack web applications. Developed real-world projects with features like payment integration, real-time processing, and secure authentication. Strong foundation in Django, REST APIs, and database design, with experience working in Agile teams and contributing to production-ready applications.

TECHNICAL SKILLS

Backend: Python, Django, Django REST Framework

Database: MySQL, PostgreSQL, MongoDB

Frontend: HTML, CSS, JavaScript

Tools: Git, Docker, Celery

INTERNSHIP EXPERIENCE

Python Developer Intern — SLBS Marklance

03/2025 – 07/2025

- Built backend modules using Python and Django, supporting multi-role user workflows and handling booking operations
- Developed REST APIs using Django REST Framework
- Designed and managed MySQL database schemas using Django ORM
- Integrated Razorpay payment gateway with webhook handling
- Identified and resolved backend bugs, improving application performance and reliability
- Collaborated in an Agile team and contributed to project delivery

PROJECTS

TourEase — *Tour Booking Web Application*

github.com/abinr843/TourEase

- Designed a multi-role system (Admin/Vendor/User) with secure payment integration and booking workflows
- Developed and tested REST APIs using Django REST Framework for booking and user management workflows
- Integrated Razorpay payment gateway for secure transactions
- Optimized database queries for better performance

Auction Hub — *Online Auction Platform*

github.com/abinr843/AUCTIONHUB

- Implemented real-time bidding logic with background task processing using Celery
- Built a multi-user platform supporting simultaneous auction sessions with role-based access control
- Implemented secure user authentication with OTP-based verification
- Designed database schema and backend logic for auction workflows
- Added automated notifications using Celery

EDUCATION

Bachelor of Computer Application (BCA)

University of Kerala | 2022 – 2025

CERTIFICATIONS

- Certified Python Full Stack Developer – IGCET
- IELTS B2 (English Proficiency)
